

Summer 2008

**Welcome New Families!**

Thank you for enrolling your child at Ojai Valley Community Nursery School. Being the only parent cooperative preschool in the Ojai Valley we offer a truly unique opportunity for families to be involved in their child's early education experience. On behalf of our current families, I am happy to welcome you into our school community!

I have already received your initial enrollment materials: the application form, enrollment form, parent agreement and annual \$150 deposit. A place is currently reserved for your child on the days you requested.

To complete the enrollment process, I must ask you to complete this packet of school entrance and health forms. Included are information sheets regarding state regulations, your report of your child's health, a report of your child's health completed by your child's doctor, a negative TB test for all parents working at our school, emergency contact information for the school, and proof of current auto insurance for field trips.

To complete these forms you will have to schedule a school entrance physical examination with your child's health care provider and a TB test for all parents working at the school. Please schedule these as soon as possible, as we legally cannot admit a child to school unless these forms are completed.

The doctor's report form requires the doctor to provide information on the vaccines your child has received. California state law requires that all children must be up-to-date with their vaccinations before being admitted to schools. However, state law also allows a parent to not vaccinate a child or complete a school entrance physical examination due to personal beliefs. If you would like to sign a form exempting your child from vaccinations please let me know, and we can do this before school begins.

Please email or call me if you have any questions about these forms.

Sincerely,

Gaea Cannaday  
OVCNS Secretary / Health Officer
